

Grammarly and similar browser plugins can cause reports to be very slow. Please pause these extensions to improve performance.

## Getting started with Reports

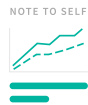

Use Cases

Quick Tips

### Examples

You can use Reports however you like. Here are a few examples:

#### Notes to self

Add a graph to reference later.

[See Example →](#)

#### Work log

Track what you've tried and plan next steps.

[See Example →](#)

#### Collaborate

Sharing findings with your colleagues.

[See Example →](#)

### Featured Reports

[Go to Fully Connected →](#)

Check out how others are using reports:

# LLM Fine-Tuning Showdown: LoRA vs QLoRA vs Full Fine-Tuning

Add a description...
